

Products for The Aluminium Industry

BAGGES

Electrical Insulation Materials

BAGGES is specialized in high temperature electrical insulating materials and production of machined parts for bus bars, superstructures, walkways, furnaces and other constructions and technical installations in smelting plants.

- Sheets
- Tubes
- Machined parts

BAGGES offers electrical insulating products specifically manufactured to meet the challenging conditions in aluminium smelter potrooms.

BAGGES has experienced engineers who can advise and recommend the appropriate grades of insulation materials for smelter construction, maintenance and replacement applications.

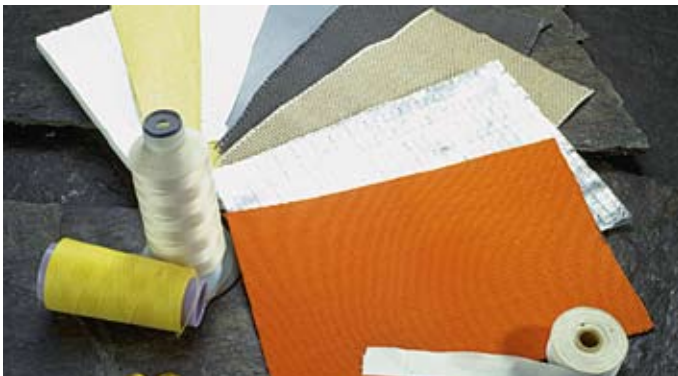

Thermal Insulation Materials

BAGGES supplies a wide selection of environmental friendly fibre and microporous materials for insulation, sealing and protective purposes for high temperatures.

- Boards
- Paper
- Felt
- Blankets
- Cloths
- Pre-fabricated shapes
- Sleeveings

BAGGES products offer cost effective solutions to improve energy utilisation, reduce weight and operating costs and increase life cycle operation.

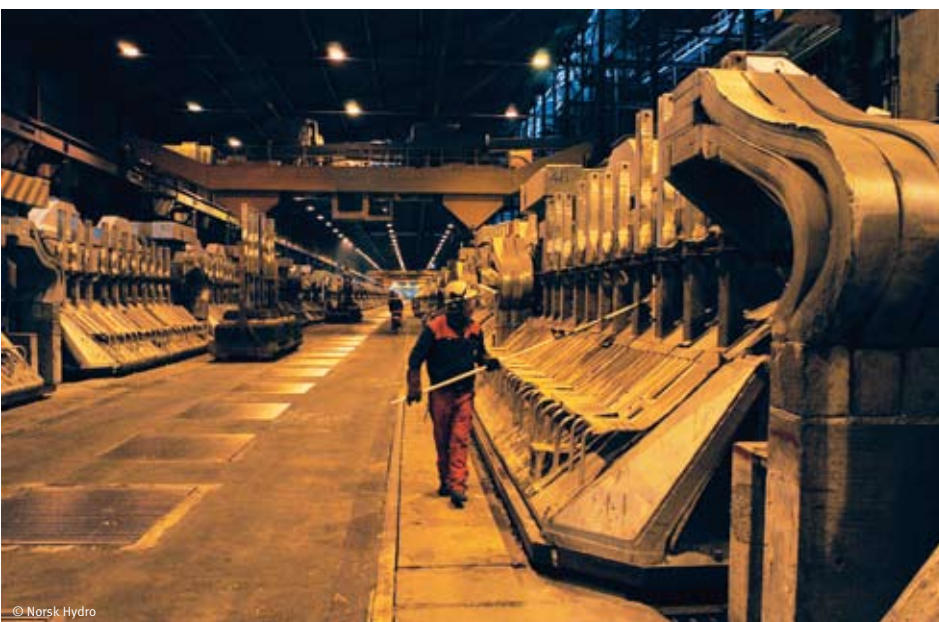

High Temperature Packings and -Gaskets

BAGGES offers an extensive range of sealing and gasket materials for applications in potrooms, cast houses and for metal transfer.

Applications include:

- Crucible lids
- Siphon tubes
- Hoods
- Doors
- Flues
- Burners
- Furnaces
- Launderers
- Collector bars

Our Productions

BAGGES has a well-equipped production plant with state of the art CNC machining-centers and skilled operators for processing insulation and gasket materials. Our production plant also includes a professional sewing shop.

Our business idea

BAGGES is a production and trading company supplying customer specified:

- Thermal Insulation Materials
- Electrical Insulation Materials
- High Temperature Packings and -Gaskets

BAGGES competitive edge is the company's extensive knowledge of the customer's specific requirements, combined with accuracy and high-quality in all added value activities. Our customers are industrial and service based companies, both in Norway and abroad.

BAGGES today

The company BAGGES was founded as long ago as in 1894. We employ about 40 people, and have an annual turnover of more than EURO 15 million. BAGGES has been certified according to ISO 9001 since 1993.

BAGGES' finances are sound, and we are located in up to date premises in Skedsmokorset (halfway between the centre of Oslo and Oslo Airport Gardermoen). The facilities of 4000 m² include production plant, warehouse and offices.

Customer-orientation, quality and flexibility combined with quick deliveries and competitive prices have given BAGGES a leading position in the business.

Geir Gudmundsen
